

Metalworking Coolants

Application	Product	Description
Grinding – Synthetic	NuKut LT 1	Synthetic for grinding. Prevents Cobalt Leaching. Bio-stable.
Tapping – Mist – Synthetic	NuKool Mist	Water-diluteable, water-thin, non-oil, tapping fluid for mist and drip = to koolmist 77/78
Machining – CNC - Synthetic	NuKut MD 1	Synthetic fluid-machining, CNC, lathes, milling, drilling, sawing, broaching. Prevents Cobalt Leaching. Excellent rust protection.
Metal Tapping & Drilling	SYN-TAP	Synthetic lubricant. Prevents corrosion, increases tool life. Non-smoking formula. EP additives Cl, S, & P.
Metal Forming & Punching	NuLube Punch	Synthetic lubricant with no oil yet better lubricity than oil based fluids. Safer to use, easier to clean, prevents corrosion, increases die life. EP Additives Cl, S, & P.
Semi-Synthetic	NuLube SS 303	Semi-synthetic fluid CNC machining & grinding, great on aluminum and all ferrous metals. Prevents Cobalt Leaching. Bio-stable.
Soluble Oils – Economy	NuKut SO 5	Soluble oil for machining & grinding for light to medium duty applications. Also functions as a great light film rust preventative. Tapping & drilling light oil.
Soluble Oils – Cl & S Free Bio-stable	NuKut SO 15P	Soluble oil, CNC machining & grinding for medium to heavy-duty applications. Bio-stable. No chlorine, no sulfur for easy disposal. Prevents rust.
Soluble Oils – Cl Ultra Heavy duty & Bio-Stable	NuKut SO 25CL	Heavy-duty soluble oil for CNC machining & grinding. Bio-stable. Chlorine, sulfur, and phosphorus EP additives for extreme pressure and added tool life.
Sump-side Defoamant	Foam-Killer	Readily water miscible defoamant for sump side additions. Easy to mix formula saves mess & time trying to mix in gooey & insoluble defoamant concentrates.

Cleaners

Application	Product	Description
Heavy Duty All-Purpose Cleaner / Degreaser	Power Wash Green	BEATS Simple Green®. Great in almost every general cleaning application. Countertops, parts, machinery, floors, concrete, glass, etc. Degreasing power that's unbeatable.
Immersion Cleaning	AquaKlean EF 13	Ultra heavy duty silicated alkaline cleaner. Multi-metal.
Parts Cabinet Cleaning	NuGenTec HDS 44	NuGenTec HDS 44: Heavy duty degreaser with built in rust protection. SPRAY.
Tank	AquaKlean EF 105 MF	Non-silicated liquid multi-metal cleaner for tank applications pH 10.2
Cleaning, Degreasing, Sanitizing	F409	All purpose spray-on & wipe-off cleaner for degreasing and sanitizing. Compare to Clorox Formula 409®.

Iron Phosphating

Application	Product	Description
Conversion Coating	NuKoat 77 MM & T	Ferrous and aluminum iron phosphate pre-paint conversion coating. Spray & tank.

SPECIAL

Application	Product	Description
Non-Ferrous Cleaning	NuGenTec AC22	Clean brass, copper, aluminum in parts washers. High temperature, low foam; degreaser, metalworking fluid and polishing compound remover.
Passivating & Desmutting	NuBrite 310	Passivates stainless steels. Cleans, shines and desmuts aluminum.
Aluminum Etchant	NuEtch 1	Alkaline solution for chemical etching of aluminum.
Metering Pumps	Force Flow Pump	Solid steel construction, connects to water lines, dilutions of 3:1 to 100:1
Tumbling Fluid / Burnishing	Tumbling Fluid	Mildly alkaline fluid for tumbling and burnishing operations.
Biocide / Fungicide	Bug-Kill	For sump-side treatment of bacterial / fungal problems. Eliminates odors.
Bacteria/Fungus Testing	Bug Sticks	Simple sump side dip stick testers to test for bacteria and fungus in sumps.
