

ANTIFOGGING COMPOUND: NGT-754-2672

NSN: 6850-00-754-2672

Description:

Antifogging Compound is a mildly alkaline liquid defogger and cleaner in one. Removes dirt, fingerprints, oil, smoke and other residues. NuGenTec's Antifogging compound is an industrial product and therefore more effective than standard store bought products for defogging. Antifogging Compound will not harm Aluminum, Chrome, Glass, Fabrics, Glass Coatings, Leather, Metal Surfaces, Optical Lenses, Painted Surfaces, Plastic, Porcelain, Rubber, Tile, Vinyl or Wood.

Applications: Glass, Coated Glass, Optical Lenses and Plastic.

- ◆ NO abrasives
- ◆ NO bleaches
- ◆ NO remaining order
- ◆ NO irritation after applied
- ◆ NO ammonia
- ◆ Non-staining

USE INSTRUCTIONS: Spray or wipe on surface, let stand 1-5 minutes, wipe clean with lint free cloth.

Technical Information:

	Antifogging Compound
Concentration Range	Full Strength
Operating temperatures	Ambient
Application method	SPRAY or WIPE
Aluminum/brass/ copper	Safe
Glass / Plastics	Safe
Optical Lenses	Safe
Painted surfaces	Safe
Clear Coat	Safe

Physical Properties:

	Antifogging Compound
pH, concentrate	10
Drying Time	1-5 minutes
Coverage	2000-2500 sqft / bottle
Solubility in water	Complete
Color	Clear
Odor	Mild alcohol
Biobased Content	>85%

Availability: 16-oz bottles.

Warnings: Do not allow spray to get in eyes. Material is safe once applied to surfaces.

Storage: Keep out of direct sunlight. Keep from freezing. Store between 35-100°F.

Disposal: Dispose of in accordance with local, state, and federal regulations.

Shipment: Freight Classification Flammable Liquid, Toxic N.O.S. (Methanol Mixture) UN1992, PG II.
